Knowledge institutions are emerging as the architects of Rural India.  
From problem finding to idea developing,  
From planning to projecting,  
From dearth of unemployment to hopes of employment,  
They are doing it all!

Hear from our expertise who's closely  
connected to UBA **Mr. Sachit Nalaskar**

**31<sup>st</sup> August 2018 at 9:30 AM**

Venue : **Seminar Hall, 1<sup>st</sup> floor, RGIT.**

“Be a part of the great initiative by **Government of India**”

National coordinator  
IIT DELHI

Zonal coordinator  
IIT BOMBAY

**Date:** 31<sup>st</sup> August, 2018

**Hall Time:** 9:30 to 11:30 am

**Venue:** Seminar

**No. of participants:** 150

“If we have to build the nation, we have to start from the villages.”

The SOCH has always thrived to work and investigate on matters when it comes toward development and till now with the help of the team managed to spread the organisation’s motto among others. Their recently held seminar on “Unnat Bharat Abhiyan” which aimed towards rural development, was a grand success!

Conveners of The SOCH; Prof. R. Y. Kurane and Prof. S. D. Gaikwad along with HODs and project guides of all the departments attended the seminar. Mr. Sachit Nalaskar, Assistant Professor from Thadomal Shahani College of Engineering was the guest of honour. He is the nodal officer and coordinator of UBA (Unnat Bharat Abhiyan) and was accompanied by two of his students; Sadiya Chaudhari and Romil Shah.

The seminar commenced at 9.30 am with the felicitation of the chief guest by Dr. Kiran Chaudhari, HOD of Applied Science and Humanities. Initially, Sir explained the need of Unnat Bharat Abhiyan. He stated that instead of inventing new technologies, techies should focus on using the existing ones to solve rural problems.

Further in the seminar, he gave detailed information about UBA and what should one do when he come across an idea which is beneficial for our villages. He also discussed about the villages that UBA-TSEC has adopted near Neral.

As time swept a wider distance, Sadiya gave a presentation about the opportunities under UBA. Lastly, Romil shared his experience of getting into UBA and gave a brief insight of roles under the same. The last session was query solving. Different queries were asked by HODs, professors and students present over there.

The seminar was successful in achieving its goal, students of RGIT enthusiastically came forward to become a part of RGIT-UBA.

The event concluded with a heartfelt thanks to all those who had guided the team throughout this seminar. The young bunch of budding technocrats made a promise to implement their knowledge towards the betterment of the country!
