

## Central workshop

Area	: 400 Sq. M.
Location	: Basement
Investment	: Rs. 21.7 Lacs
Utilization	First Year Basic Workshop Practice I & II S.E. (Mechanical) Machine Shop Practice Final Year Project Work & Mini Project

### Objectives:

1. To impart training to help students develop engineering skill sets.
2. To inculcate respect for physical work & hard labor.
3. To get exposure to interdisciplinary engineering domain.

### Outcomes:

1. Develop the necessary skill set to use different fitting, carpentry, sheet metal tools.
2. Know the specifications, controls and safety measures related to machines and machining operations.
3. Use the machines for making various engineering jobs.
4. Perform welding and machining operations.
